

Resin for 1K primer for car repair

86-750-3657002
doris@pjresin.com

Product Code	Non-volatile %	Viscosity mPa•s/25℃	Acid value mgKOH/g	Solid hydroxyl value mgKOH/g	Solvent	Properties	Applications
PJ61015-50	50±2	2000-4000	2-5	50	Toluene/butyl ester	Excellent adhesion, Good silver powder layout, good wetting and dispersibility of pigments	Silver powder paint and solid color paint
*PJ61015-50A	50±2	2500-5000	2-5	50	Mixed esters	Excellent adhesion to ABS and hardware substrates, arrange the silver powder properly, cost-effective	Car 1K primer, PU paint, ABS, PC self drying paint
PJ61019-50	50±2	4000-6500	2-6	60	Toluene/sec butyl ester	Good adhesion, good silver powder layout, cost-effective	Silver powder paint
PJ61058-50	50±2	2500-6500	2-5	60	Toluene/Trimethylbenzene	Fast drying, lifting resistance, good wetting and dispersibility of pigments	Solid color paint
